RCCA Desmond Yeoh
See Chong & Ong Yen Wei
Project manager / Housewife

RCCA Desmond and Yen Wei led an ordinary family life, with Desmond as the breadwinner and Yen Wei as the homemaker. Gradually, they yearned for more time freedom. Desmond's demanding job deprived him of spending time with his family. "For 18 years, I was busy climbing the corporate ladder – from engineer to the managerial level. I worked 12 hours daily, 6 days a week. Yes, I was earning a decent income, but at the expense of family time."

Yen Wei too wanted a change, where they could both make plans according to their time and not based on Desmond's hectic work schedule.

Starting afresh

Yen Wei ran a gift shop for 4 years. After their first child was born, she sold the shop and became a full-time homemaker. Several years ago, when Yen Wei had some free time while the kids were at school, she took up a course in dietetics and nutrition. After earning her diploma, she thought about starting a business selling organic and health products. At the same time, they were introduced to BE and Aulora Pants. Desmond encouraged her to take up this business instead.

It didn't take long for Desmond to resign and join Yen Wei in the BE business full-time. Desmond said, "Tony Robbins quoted, 'If you want to take the island, burn your boat.' BE was obviously the platform that will offer us the time freedom we were yearning for. The decision (to resign) was easy."

The change

Initially, Desmond was attracted by the power of exponential growth in network marketing, but along the way, he was inspired by gratitude and family culture. "The BE system education could be applied in our personal lives."

For Yen Wei, BE has transformed her into an optimistic person. "I used to be easily influenced by circumstances and tended to be negative. The old me would have been badly affected by the Covid-19 pandemic. I would have been worried about everything. Thankfully, BE has turned me into a confident and positive person."

Desmond continued, "Our lives have changed completely. We are now the master of our time. We do what we love, and we love what we do. It's wonderful being able to help people regain their health and succeed. BE truly fulfils its promise of BEyond Inspiring Mind, Touching Lives for Eternity."

Choose wisely – choose the time

Desmond and Yen Wei both lost their fathers to cancer. "When I lost my father, I realised that life is unpredictable, health is priceless and the most important thing in life is time. Once it's gone, it never returns," Desmond said. "So, make a wise choice and go all out. You really don't want to sit there when you're 55 and wish you had done it. That'd be too late!"

Yen Wei added, "The best investment you can make on is health. When you invest in health, you'll be on your way to your dream life."

**Be brave
to try and fail;
don't fail to try.**

RCCA Aries Chua

Former e-hailing driver

With RM1 million debt and 4 kids to care for, life was hard for RCCA Aries. During that dark chapter of her life, she preferred the night and feared the day, “Because, at night, I wouldn't get calls from the banks (chasing for payments)”.

Earning RM500 a week from her e-hailing driving job was barely enough for survival. Desperate, she sold all her stocks to cover her family's expenses. She knew she needed a breakthrough opportunity and that her e-hailing driving job was just a stop-gap measure.

Her big break came when she met her upline, who introduced her to BE.

Know what you want, and you'll be unstoppable

BE was the business opportunity Aries desperately needed. Initially, she wanted to pursue the BE business part-time to supplement her e-hailing driving income. “But my uplines helped me weigh out the pros and cons of juggling two jobs. If I wanted to succeed in my BE business, I would need to invest time and effort. It's the career that will save me from living a hand-to-mouth existence.”

Photo taken with upline and IBOs

Once Aries saw the bigger picture, she chose BE and devoted 100% effort to the business. She followed her uplines' footsteps, the company's strategy and system. By the third month, her income had tripled.

"Exploring the market in Kota Kinabalu was my biggest challenge. I was still struggling financially and had to think carefully about the flight tickets, accommodation and food. I had never been to KK, and it was still an untapped market. I was worried and unsure, but my uplines encouraged me with this: where there are people, there will be a market. Sow the seed for a future harvest. I am so glad I did that. Three years later, I have successfully built a strong network in KK!"

Aries continued, "This experience has taught me that you can't just imagine the future. You have to take action, make every effort and don't look back. Opportunity waits for no one!"

Be brave to take the first step

Now, Aries no longer prefers the night to the day. "I don't worry about the banks or our livelihood anymore. And my financial stability has allowed me to invest in a house that my children and I like!"

It's common to hear about people struggling to make a living when the economy is not good, especially during this Covid-19 pandemic. "There are always opportunities in every crisis. Be brave to try and fail; don't fail to try. There's plenty of room on the road to success because few people dare to step out of their comfort zone. So, take courage. Take the first step, and you'll be on your way to success."

**BE LIFESTYLE TRAVEL -
JAPAN OSAKA 2022
(6-DAYS 4-NIGHTS)**

QUALIFYING PERIOD:
AUGUST 2021 - JANUARY 2022

The Arashiyama Bamboo Grove is one of the top locations to visit. The pathway opening up to a forest of bright green towering stalks of bamboo on both sides is an out-of-world experience for its visitors.

While a photo may not be enough to capture the wonders of the captivating scenery, the natural tranquillity of the forest alone is a sight worthy of everlasting memories. If the visuals alone do not suffice, the melodies of the gently swaying bamboo stalks rustling in the wind will take your breath away!
